

Ergo Lite

(KM-2501)

Karma have produced their lightest wheelchair yet without compromising the strength and durability you would expect from a Karma product. Every part of the Ergo Lite has been streamlined to reduce weight but it still has a double cross brace which ensures the wheelchair is also sturdy.

The Ergo Lite weighs just **8.3 kg** (17lbs) complete and we believe that it is the lightest available on the market today. It also features Karma's patented S-Ergo seating system which provides pressure relief and helps to prevent the user sliding down the seat. Why not try it today at your local Karma retailer? Please call us for details of your local Karma retailer.

Smart Ergo seat
