

Mini Comfort

The new **KYMCO Mini Comfort** mobility scooter has been designed to give you the very best in quality, transportability, manoeuvrability & to provide you with an incredible level of comfort & driving performance. Designed with lightweight components & utilising ergonomic dismantling mechanisms, we have developed one of the lightest & easiest to use Mini type scooters on the market today !

With the Introduction of a brand new suspension system & improved comfort seating, we have enhanced this new Mini model to provide you with that extra level of comfort that you would normally expect from the much larger models in our range. Some of the very latest technologies have also been utilised to provide low energy LED front and rear lights, wireless electrical connections, which means that there is no need for you to worry about managing awkward plugs or wires, while dismantling the scooter or removing the battery box. You won't need to worry about punctures either, as the **Mini Comfort** has soft roll puncture-free tyres, allowing trouble free & comfortable driving.

The long range 22amp battery system will keep you going for longer, for when you need to rely on a greater travel range !

We have also introduced two **brand new** attractive metallic colours on **Mini Comfort**, Glossy Bronze & Metallic Mink, making the new **Mini Comfort** look even more stylish than ever before !

Comfortable & Transportable !

*New improved
comfort seating*

*Suspension for more
comfortable driving*
