

Komfy 4 & Komfy 8

Komfy

The new **Komfy** mobility scooter has been designed to provide you with the ultimate in comfort, style, manoeuvrability and performance. Designed with particular attention to ergonomics and comfort, we have developed one of the most flexible and easy to use scooters on the market!

There are two versions of **Komfy** available; **Komfy 4** which has a top speed of 4 mph (6.4 kmh) and **Komfy 8** which has a top speed of 8 mph (12.8 kmh), both versions are packed with many features that you would naturally expect from a modern, advanced mobility scooter. **Komfy** will enhance your everyday life, independence and enjoyment of travel.

Please see below details of some of the standard features included, for your enjoyment:

Easy to operate wrap-around handlebars, making **Komfy** simple to drive. You can rest the palms of your hands, relieving your wrists from strain and tiredness while driving.

Large, soft-touch switches and easy to read displays, making **Komfy** so easy to use. Your interaction with the controls will be a pure delight to operate.

Long range 45 amp batteries providing a superior, extended travel range per charge.

A lockable safety hand-brake is fitted as standard, for emergency braking, if required.

A large soft rubber handlebar adjustment knob, makes it much easier to grip, to tighten and loosen the handlebar adjustment system.

Full LED, low power consuming lighting system, providing superb lighting with very little battery usage, keeping you going for longer.

A fully adjustable suspension system, to allow the **Komfy** to be tailored to suite your driving conditions to the fullest. With **Komfy** your comfort is always the main priority.

Modern mono-shock adjustable rear suspension system, providing the ultimate in comfort.

Stylish aluminium wheels with luxurious pneumatic tyres, provide you with the very best driving experience, reducing the shock from bumpy and uneven driving surfaces.

Rear wheel splash guards to prevent water from spraying up when driving in wet conditions.

Reclinable, high quality and breathable, comfort captain seat, that can swivel to allow safe and easy access on and off the scooter. This allows better access to sit at tables without the need to get on and off your scooter each time.

A convenient USB socket is available for you to charge your mobile phone, tablet or sat-nav.

Komfy has a powerful 500 watt motor, providing you with an unrivalled driving performance.

A choice of 4 attractive metallic colours; Sapphire Blue, Cherry Red, Mercury Silver & Glossy Black.
